What's Hot...

Ceramic blades are, at their heart, a crystal lattice. Able to hold an edge sharper than any steel, and for up to ten times as long between sharpenings, they are a great long-term investment in any kitchen.

Using a ceramic blade, you can achieve zero cross-contamination with a quick rinse under the tap, and a wipe with a paper towel. The blade is inherently non-stick so anything on the surface just washes or wipes off, and with no micropores to capture particles, there is no sub-surface contamination either.

Customised laser-engraving also makes it a long-lasting and highly functional gift for newly-weds to cut their cake with on the big day... and for many years afterwards.

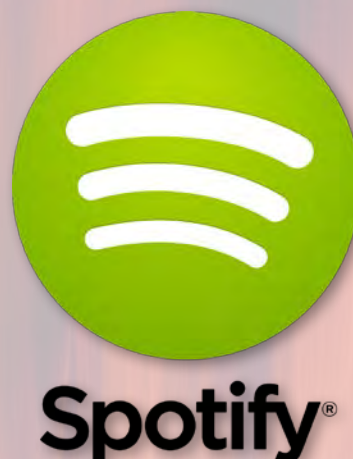

More Information: www.ceramicknife.co.nz

Want a nearly unlimited choice of music for your big day? Search by your favourite artist, by the genre or style, by the era, or just browse in the Discovery panel to find what's new and trending.

Once you have selected your chosen soundtrack, save the playlist for later, and get ready to set the tone for the big day, your way!

Don't want your important moments interrupted by adverts? Check out the Premium service - advert-free, save tracks for playing offline (great if the venue doesn't have good WiFi), and relax knowing that your guests will hear only the sounds you have selected. The first 30 days of Premium are even free!

More Information: www.spotify.com/nz/premium/

When you think of drinking chocolate, a can of dark, rich, sweet powder probably comes to mind. For those who don't partake of tea and coffee, this is quite possibly the only hot drink they indulge in.

On your big day, you really want the best, and it wouldn't be polite to skimp and get the caterers to offer second-rate mass-produced cocoa to your loyal and valued guests.

Fair-trade, gluten-free, soy-free and utterly decadent, Bennetto Drinking Chocolate is the pinnacle of the art. Prepared in the kitchen, it will be simply the best hot chocolate drink your guests have tasted, but prepared at the table it will be an experience sure to impress them almost as much as the celebration itself did.
